Advancement of objectives.

The Association had obtained the approval of Privy Council for the scheme to assess the competence of applicants wishing to apply to HPC for state registration and had appointed a panel of assessors. The panel has been reviewed and meetings of assessors were held on 23th November 2006 to discuss how the assessment process was functioning and to develop good practice guidelines. An applicant questionnaire had been introduced in 2005 and further feedback was reviewed at the November meeting of assessors.

180 applications for assessment were received in 2006, of which 141 were interviewed in the year and 131 of these were successful. The breakdown by modality is shown in the following table.

Modality	Applications	Rejected portfolio	Failed	Success	In progress
Audiology	16	2	0	9	5
Clinical Biochemistry	24	3	2	15	4
Clinical Embryology	3	0	0	3	0
Clinical Genetics	40	1	1	33	5
